Happy Brain Education

Mentoring Information Booklet

Our Purpose

We exist to level the playing field of education for young people.

At Happy Brain Education, we believe that meaningful learning opportunities can transform the lives of young people and empower them to achieve their potential.

Our priority is supporting students in pressured circumstances to achieve their potential and to ensure that they have the same access to opportunity as everyone else.

At Happy Brain Education we support 100s of students every year. We believe it is those who have experienced social disadvantage who have the deepest insight into the need to create change for future generations. We provide our students with access to high quality, holistic and meaningful educational experiences. Through connecting them with tutors and mentors, our students are supported to shape their academic futures and careers.

OUR VISION

All young people
have the tools to set
their own path.

YOUTH MENTORING PROGRAM

Happy Brain Education's Mentoring Program aims to empower students from a refugee background and support their learning and growth. We are firm believers that young people, no matter their circumstance or background can and do make a difference. Through our program, we hope to empower young people with the skills, connections and knowledge so that they are able to achieve their best and create meaningful change in their communities.

Program objectives

Create an inspired and connected
community of young people

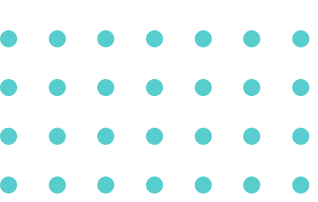

Foster a supportive and safe
learning environment that promotes
personal growth and education

Empower students from refugee
backgrounds to achieve their
potential

Mentee eligibility

The Mentoring Program is for young people from refugee backgrounds aged between 12-21.

Refugee background refers to someone who has arrived in Australia as a refugee or is currently a person seeking asylum. We offer mentoring to all people who sought or are seeking refuge from harm in Australia, no matter what stage of the refugee determination process this person is currently experiencing (including the appeals process).

Most of our mentees are referred to us by case managers working with newly arrived refugees/people seeking asylum in the community. If you have a client who you think will benefit from the Mentoring Program, please complete the referral form below.

NEXT STEPS

1. Visit our [website](#) to learn more about our work and the program itself
2. Assist the nominated mentee in filling the [application form](#) by the 16th of February
3. If you need any assistance, email us on mentoring@happybrain.org.au

THANK YOU

We look forward to working with you!
